

English Country Dance

**Fabulous
live music!**

Spirited and graceful folk dances
from the 1600's to today

Join us for an afternoon of joyous dancing in a friendly, relaxed, fragrance-free atmosphere. No experience is necessary -- all the dances are taught and led to varied tunes played by a marvelous band. It's mostly walking and skipping; there are no fancy steps to learn. Come as you are -- no partner needed. You'll soon know everyone in the room!

English country dance is based on the traditional folk dances of England, many from the Renaissance and Baroque eras, though new ECD dances are still being written today. You may be familiar with today's American contras and squares, the descendants of the English form.
